

# Desire

Holly Valance

Late night  
Party time  
All around me  
The room is jumping  
This feeling I can't contain it  
Got me reeling  
Our bodies pumping  
Your eyes move  
Like on my body  
And the headlights  
The heat is rising

Nothing that I can do  
Can't stop me from wanting you  
I'm losing my self control

If I lose my mind  
Touching you tonight  
I can't help myself  
Gotta satisfy my desire  
If I cross the line  
If I run this red light  
I can't help myself  
Gotta satisfy my desire  
My desire

Right here  
Right now  
Your adrenaline, pureness  
As you hold me  
You're still and then we kiss

Nothing that I can do  
Can't stop me from wanting you  
I'm losing my self control

If I lose my mind  
Touching you tonight  
I can't help myself  
Gotta satisfy my desire  
If I cross the line  
If I run this red light  
I can't help myself  
Gotta satisfy my desire  
My desire

My desire, my desire, my desire, my desire, my desire

If I lose my mind  
Touching you tonight  
I can't help myself  
Gotta satisfy my desire  
If I cross the line  
If I run this red light  
I can't help myself  
Gotta satisfy my desire  
My desire

My desire, my desire, my desire, my desire, my desire
