

# Over n Out

Holly Valance

Come with me guarantee  
Everywhere we go we're gonna rip it up  
(Over and out)  
It's free to ride  
Step inside  
Keys in the ignition  
We're gonna burn it up  
(Over and out)

I don't know what the future holds  
I don't care  
Place your hands, now we're on a roll  
All say yeah  
No one knows what the future holds  
No one cares  
Get in line 'cos I'm on patrol  
I say yeah

No matter who you are  
Just get with me  
You don't need an invitation  
We're tearing this place apart  
You know it 'cos  
We're causing a real sensation  
(Over and out)

Roll it out, getting loud  
Kicking up our feet  
Cos now it's party time  
(Over and out)  
Joie de vive, dance with me  
We don't have to force it  
Gonna make it rhyme  
(Over and out)

I don't know what the future holds  
I don't care  
Place your hands, now we're on a roll  
All say yeah  
No one knows what the future holds  
No one cares  
Get in line 'cos I'm on patrol  
I say yeah

No matter who you are  
Just get with me  
You don't need an invitation  
We're tearing this place apart  
You know it 'cos  
We're causing a real sensation

Yeah, ain't nothing better  
And yeah, there's no one ever, oh

I don't know what the future holds  
I don't care  
Place your hands, now we're on a roll

All say yeah  
No one knows what the future holds  
No one cares  
Get in line 'cos I'm on patrol  
I say yeah

No matter who you are  
Just get with me  
You don't need an invitation  
We're tearing this place apart  
You know it 'cos  
We're causing a real sensation

No matter who you are  
Just get with me  
You don't need an invitation  
We're tearing this place apart  
You know it 'cos  
We're causing a real sensation  
(We're causing a real sensation)

A real sensation  
A real sensation  
(Real sensation)
