

Please Please Me

Holly Valance

I don't need no one spinning me a line
It's all been done
Cos I know just what I need to satisfy my curiosity

But now you break the code that I can identify
You start it up and you know just what I like
You fit my expectations
And I say Go, Go

Why don't ya
Please, please, please me
Anyway you can turn it on
See where I'm coming from
Please, please, please me
What a girl like me, could do with someone like you
Na na na na na na
What I could do with someone like you
Na na na na na na
What I could do with someone like you

I could be impressed
So put your reputation to the test
Just give me something I can't ignore

You got an invitation to explore

Now I'm racing ahead but you're right in front of me
Something about you that I find unsettling
I'm anticipating
Don't say No No

Why don't ya
Please, please, please me
Anyway you can turn it on
See where I'm coming from
Please, please, please me
What a girl like me, could do with someone like you
Na na na na na na
What I could do with someone like you
Na na na na na na
What I could do with someone like you

Whenever I'm near you
Whenever I see you
Whenever I do

Why don't ya
Please, please, please me
Anyway you can turn it on
See where I'm coming from
Please, please, please me
What a girl like me, could do with someone like you
Na na na na na na
What I could do with someone like you
Na na na na na na
What I could do with someone like you
