

State Of Mind

Holly Valance

You dont need to hang around
you dont need to talk right now
got a feeling its the same mistake
got a feeling its gonna break

Somedays, sometimes, this dont feel right

Too hard to touch, its getting to much
you know its just a state of mind
driving you wild get caught up inside
you know its just a state of mind

All i need is to breathe
all i need is to believe
can i have it now i know
gotta have it take it slow

Somedays, sometimes, it just goes right

Too hard to touch, its getting to much
you know its just a state of mind
driving you wild get caught up inside
you know its just a state of mind

state of mind
state of mind

Too hard to touch, its getting to much
you know its just a state of mind
driving you wild get caught up inside
you know its just a state of mind

Too hard to touch, its getting to much
you know its just a state of mind
driving you wild get caught up inside
you know its just a state of mind

you know its just a state if mind
