

## State Of Mind

Holly Valance

You dont need to hang around  
you dont need to talk right now  
got a feeling its the same mistake  
got a feeling its gonna break

Somedays, sometimes, this dont feel right

Too hard to touch, its getting to much  
you know its just a state of mind  
driving you wild get caught up inside  
you know its just a state of mind

All i need is to breathe  
all i need is to believe  
can i have it now i know  
gotta have it take it slow

Somedays, sometimes, it just goes right

Too hard to touch, its getting to much  
you know its just a state of mind  
driving you wild get caught up inside  
you know its just a state of mind

state of mind  
state of mind

Too hard to touch, its getting to much  
you know its just a state of mind  
driving you wild get caught up inside  
you know its just a state of mind

Too hard to touch, its getting to much  
you know its just a state of mind  
driving you wild get caught up inside  
you know its just a state of mind

you know its just a state if mind
