

# Nothing More

Holly Williams

(Holly Williams)

Underneath this age is the heart of a child  
It only wants to love, it begs to come alive  
I want your desire and I long for your hands  
To grace me with their presence and touch me again  
Nothing More

I don't want your nice gifts  
I'm so tired of your words  
I'd really like a feeling from the place that you love  
Nothing more

It's a long way we've come just to simply exist like this

Tell me something true, even if it hurts  
I'm waiting on a sign, do you remember love  
Do you remember love?  
Nothing More

All that I want is you in the end  
All that I want is you in the end  
All that I want is you in the end  
All that I want is you
