

Always 18

Hollywood Ending

Be brave
Stay the same
Snapshot, yeah, it's okay
We're gonna be alright

Freeze frame
Never change
Same book when we turn the page
These are the words we're gonna write

Now and forever
Always
Now more than ever
Eighteen

I know a place
Where we're always 18
Write our names
In the heart of these streets
Always remember, always 18
Young and free
I know a place
Where we're always 18
The further we get
The closer it seems
Where the dreams
We made never die
For you and I

Crossroads
Summer ghosts
Don't blink, let it go
We're gonna be alright

Memories
Melodies
Last words, lullaby
To sleep these words
We'll sing all through the night

Now and forever
Always
Now more than ever
Eighteen

I know a place
Where we're always 18
Write our names
In the heart of these streets
Always remember, always 18
Young and free
I know a place
Where we're always 18
The further we get
The closer it seems
Where the dreams
We made never die

For you and I

Never thought
We'd ever forget this
Never crossed you off
Of my checklist
Never say no, no, no,
Never now

I know a place
Where we're always 18
Write our names
In the heart of these streets
Always remember, always 18
Young and free
I know a place
Where we're always 18
The further we get
The closer it seems
Where the dreams
We made never die
For you and I
