

Don't Let Me Down

Hollywood Ending

I'm opening up, so don't let me down

The first time you ever looked at me
You were driving by in a brand new jeep
Flash forward just a couple weeks
I gotcha, stuck in my head like a song in the top 40

Gonna keep you locked up tight my heart is a safe
I wanna be the only thing you'll never replace

I'm opening up, so don't let me down
If I asked you to stay would you stick around
Just one flip of your hair in this warm ocean air
I'm opening up, so don't let me down
Oh aye oh...

So don't let me down

Girl I'm not one to ever speak my mind
But there's just something I can't keep inside
Love at first sight girl you got me blind
You're all I see when I close my eyes

Gonna keep you locked up tight my heart is a safe
I wanna be the only thing you'll never replace

I'm opening up, so don't let me down
If I asked you to stay would you stick around
Just one flip of your hair in this warm ocean air
I'm opening up, so don't let me down
Oh aye oh...

So don't let me down

I'm going out on a limb here but believe me I'm sincere
I want ever second, every minute, every hour, every day of this year
With you in my arms to hold you otherwise I wouldn't of even told you,
But those great looks made me forget about facebook and get a little more so
cial
So I approached you like you're freakin tremendous all nerve
It's like my first trip to the dentist
And this isn't something that I'm used to I'm still in your ear like a Bluet
ooth
Cause I think you're the prettiest
And now to tell you I'd have to be an idiot my name's Mason
You met me now and the only thing left
Is to not let me down!

I'm opening up, so don't let me down
If I asked you to stay would you stick around
Just one flip of your hair in this warm ocean air
I'm opening up, so don't let me down
Oh aye oh...

I'm opening up, so don't let me down
If I asked you to stay would you stick around
Just one flip of your hair in this warm ocean air

I'm opening up, so don't let me down
Oh aye oh...

So don't let me down

Oh aye oh...

So don't let me down
