

# You Got Me

## Hollywood Ending

Don't you put your makeup on, you don't need it tonight  
You can let your hair fall down, it'll be just right  
I like you better when it's not, just pretend

Go give your best friend back her favorite shoes.  
Take off your sister's dress, baby it's no use.  
I like you better when it's not, just pretend.

[Chorus]

Baby you got me, you got me.  
There's no way to escape.  
Baby you got me, you got me.  
This time it's more than fate.  
My heart is bumpin' out, no matter what you think.  
Baby you got me, you got me.  
But that don't change a thing.  
No it's not gonna change. No No

Yeah I like the silly jokes that you always tell.

And the way that you smile thinkin you're by yourself.  
I like you better when it's not, just pretend.

Yeah I love that you turn red when I whisper in your ear.  
And the way that you sing thinking no one can hear.  
I like you better when it's not, just pretend.

[Chorus]

Baby you got me, you got me.  
There's no way to escape.  
Baby you got me, you got me.  
This time it's more than fate.  
My heart is bumpin' out, no matter what you think.  
Baby you got me, you got me.  
But that don't change a thing.  
No it's not gonna change. No No

The first time you caught me looking was the

last time that you'd get away

Cause we both, we both know

I see the you that nobody ever gets to see.

I see your walls come up when you're feeling shy,

and I wish that every day we could say goodnight

I like you better when you,

better when you

[Chorus]

Baby you got me, you got me.  
There's no way to escape.  
Baby you got me, you got me.

This time it's more than fate.  
My heart is bumpin' out, no matter what you think.  
Baby you got me, you got me.  
But that don't change a thing.  
Baby you got me, you got me.  
Don't let yourself forget,  
My heart is bumpin' out, no matter what you think.  
Baby you got me, you got me.  
But that don't change a thing.  
No it's not gonna change.

Not gonna change, no no.

Not gonna change, no no.
