

## California Dreaming

## Hollywood Undead

Like a sink hole  
(Like a sink hole)  
Stars are born then fucking ate up in a day slow  
What does it show?  
(What does it show?)  
C-C-Cut up all the tethers to your lost soul  
Think I'm 'bout to die on a dotted line  
(Venice Beach, cutting throats on a shoreline)  
It ain't a fucking crime, for taking back what's mine  
Los Angeles, we on a front line  
Click-click-boom, let them fall  
(Lighting them up with a semi-matic auto  
Hear the call, hear the call  
Hop in the whip to tip it straight then I'm out though  
When I do it like this with a wiffle ball bat  
Surf's up bitches, and it's like that  
Hollywood coming to attack!

I'm no shooting star  
Just a burning heart  
We never sleep, in California we're dreaming  
Running through the dark  
Broken boulevards  
We never sleep, in California we're dreaming  
In California we're dreaming

I'mma get it now, Armageddon now  
Coked out skeletons, come back down  
Break them down, gotta break them down  
Broke down Ford lights, sing so loud  
The greatest story ever told, the greatest mob ever known  
(Dead man walking)  
Audition for the big show  
It's biblical,  
(It's also cynical)  
In the land of make believe the situation's critical  
Sink down to the ocean like some artists at our pinnacle  
Yeah, I'm just a vision but my wings are fucking literal  
As above  
(So below)  
You wanna go to heaven but you sold your soul  
Dying young, I'm going cold  
Cut yourself apart so you don't grow old  
We're living in denial but we're doing it in style  
Out here in California, it's a trial by fire!

I'm no shooting star  
Just a burning heart  
We never sleep, in California we're dreaming  
Running through the dark  
Broken boulevards  
We never sleep, in California we're dreaming  
In California we're dreaming

Tension hidden in the question  
Underneath the dreams I hold  
I can see rejection in my own reflection

I can feel my dreams grow cold  
Dreams grow cold!

I'm no shooting star  
Just a burning heart  
We never sleep, in California we're dreaming  
Running through the dark  
Broken boulevards  
We never sleep, in California we're dreaming  
In California we're dreaming

In California...  
In California we're dreaming  
In California we're dreaming  
In California we're dreaming  
In California...
