

# Levitate

Hollywood Undead

Can't stop I need some help.  
F-ck you, I'm by myself  
Is it a truth or lie?  
It's what you can't deny.  
'Cause it's the way you think  
Mixed with the pills and drink  
Brought back to the way you are  
Flowed up to there, close to god  
You know that hiding ain't gonna keep you safe  
Because the tears on your face  
They leak and leave a trace  
So just when you think the true love's begun  
It goes off at any second just like a loaded gun

[Danny]

You know, I can take you straight to heaven if you let me...  
You know I, I can make your body levitate if you let me...  
You know that I can make your body levitate... le-levitate...  
I can make your body levitate... le-levitate! (you know...)

Can't stop the feeling,  
High as a ceiling  
I got the money, who's f-ckin' dealin'  
I feel the heat like the barrel of a gun  
I forgot the last time I saw the sun  
I've got this disease  
It's digging deeper in me  
It's like my mind is leaving,  
But my heart keeps beating  
So I'll paint the walls, red drip from the nose  
But where it goes, nobody really knows  
Hit the bottle and she's gonna follow  
I fall asleep there ain't no tomorrow  
Gone so far, nobody can save me

Who needs you when I've got my baby  
My baby is beautiful, she loves me true  
But if she dies I hope I die too!

You know, I can take you straight to heaven if you let me...  
You know I, I can make your body levitate if you let me...  
You know that I can make your body levitate... le-levitate...  
I can make your body levitate... le-levitate! (you know...)

I put down another sack of them  
Then it's straight back to the flask again  
I can't help stop what's happening  
One the wrong track, yeah, I'm back again  
Up shit's creek and I'm paddling  
Blacked out room and I'm travel in  
Good ideas, I'm liking them  
I'm too f\*cked up now I'm babbling  
Wonder how to fix these damages  
All these goddamn damages  
Cover myself with bandages  
From all these goddamn damages  
Wonder how to fix all these damages

All these goddamn damages  
Cover myself with bandages  
From all these goddamn damages

You know, I can take you straight to heaven if you let me...  
You know I, I can make your body levitate if you let me...  
You know that I can make your body levitate... le-levitate...  
I can make your body levitate... le-levitate! (you know...)
