

## The Loss

### Hollywood Undead

Sick with myself, but I've got no one else,  
So I give it to myself it's the only thing that helps  
It's the same thing this pain thing that keeps me from sleeping  
And screaming that God I must be mother-fucking dreaming  
And I can rest in peace and at least cease to be  
Cease to see those things in me that make me wanna cease to breathe  
And ceased to need and ceased to feed, sickness thats in me  
This is all that I can be, I can't breathe as I bleed

I dont know why I cut myself, God, give me a sign or help  
I wont cry it'll be fine, I'll take my last breath  
Push it out my chest 'till theres nothing left  
I know that my minds near the end, God, I hurt myself and fell  
I wont cry it'll be fine, I'll take my last breath  
Push it out my chest 'till theres nothing left

Have you ever met a living legend  
Just a real friend who planned his end and  
Where do I begin?  
You said it was pretend  
And when the bullet went through  
It took more then just you, it took two  
It was you it was me and suddenly  
How can someone say they're helpless and then they act so selfish  
You put me through hell with this so fuck you lets just end this  
And what about our friendship?  
And what you did was senseless  
You thought you found an exit  
Like I said, let's end this!

I dont know why I cut myself, God, give me a sign or help  
I wont cry it'll be fine, I'll take my last breath  
Push it out my chest 'till theres nothing left  
I know that my minds near the end, God, I hurt myself and fell  
I wont cry it'll be fine, I'll take my last breath  
Push it out my chest 'till theres nothing left

I just wanna say good bye, dissappear with no one knowing  
I dont wanna live this lie, smiling to the world unknowing  
I dont want you to try, you've done enough to keep me going  
I'll be fine, I'll be fine, I'll be fine for the very last time

I dont know why I cut myself, God, give me a sign or help  
I wont cry it'll be fine, I'll take my last breath  
Push it out my chest 'till theres nothing left  
I know that my minds near the end, God, I hurt myself and fell  
I wont cry it'll be fine, I'll take my last breath  
Push it out my chest 'till theres nothing left
