

## The Nightcomers

Holocaust

On the other side jesters keep their watch  
Fifteen million lives ready to be lost  
We come from the Northern Headlands  
The warriors of ice  
Come to cleanse the world  
Destroy the human sacrifice

And the living dead will swarm upon this earth  
The multitude will gather to punish every breath  
And in the devil's gallery  
A feast will be prepared  
For those of us who dared...

"We will forever haunt you"  
The torrid masses scream  
Damnation, hate and torture...  
The order of the dream  
As angels flee in terror  
The sun begins to freeze  
And every soul on earth  
Is broken by the breeze
