11 September

Holy Knights

Danger is everywhere You can find nobody here

I can't now believe it Like a river I see to flow away all my dreams

Be only one make survive you Be only one make to scrape you To be only one I'm trying to highlight my hard way

Sleeping in my bed All the dreams becomes so far How can I be free now that I know Silence doesn't mean just what I hope?

Eleven nine is a symbol How can mankind be surprise of The pain and the fear, the tears of the children survived?

We'll see the trails in the sky together Earing screams that breaks our hearts Walking on the rubble We'll try to hear another breath of human Silence and cold make we lose any hope

I will survive Bring with me your sorrow Won't surrender to this pain So I will fly too higher Won't give up to follow us, forever...

To scrape I tried so many way The dark is coming from my memories I'll leave this evil to take back the wasted time And fly away from this cage
