Holy Moses

You'll be loosing your life everywhere
Who said to you that you are on a right mission
Why don't you think about it illusion takes you but how far

Your life is pain see it now
No hope for you, you are blind, you don't see what you have done
What do you want to control, the third world was becomes reality

You won't be a great soldier, you'll be dead
Why do you work so fucking hard, to achieve your soldiers ideals
As a soldier in this world, you are the losers for the reigns
