AAAhhhhhh.....

After school they take the gun
No emotions since Vietnam
Millions involved in this case
Plastic blood runs down their face
Living under blind instruction
Our saviours from destruction
Permission to fire with a smile
Do they care if we live or die

Play - that you don't feel the pain When the bullet hits your brain Watch out - in this final maze Bombs don't shape a peaceful race

A reign of fear for tomorrow Broken bones for our sorrow Hell on earth is their bloody deed The fuckin' army is their need

Play - that you don't feel the pain When the bullet hits your brain Watch out - in this final maze Bombs don't shape a peaceful race
