

## Step Ahead

Holy Moses

Who do you respect?  
What do you know?  
We both know it isn't right  
Step ahead, complete the show  
Do you suspect your brother  
To betray and step you in the back  
You know he's there for one another  
We both know it ain't correct

Step ahead - step ahead  
Step ahead - step ahead

Who do you think you are?  
What do you know?  
You can't put down a person  
'cause he let his feelings show  
You're trying to be the tough guy  
You think you are so cool  
But when it gets down to emotions  
You're acting like a fool  
Can you control your feelings  
That you hold deep inside  
Or do you just close your eyes  
And try to hide

Like any of your kind - step ahead  
Do you still think you're better  
Than the others you neglect  
Step ahead, shut off your mind  
Choke on your disrespect  
Step ahead - step ahead  
Step ahead - step ahead  
Choke on your disrespect
