

## Summer Kills

Holy Moses

Dreams of hope hides all our sins  
Winter's changes where it all begins  
A false belief, that's not fair  
Nature's gift, why are they there

I feel something I can't explain  
It takes control and gives me pain  
There are thoughts infesting my mind  
Take a look and see what you find

Summer kills - Summer kills - Summer kills

Summer's heat cuts like a knife  
Winter makes summer come alive  
Firestorms tear the planet's soul  
Human race near its final goal

I feel something I can't explain  
It takes control and gives me pain  
There are thoughts infesting my mind  
Take a look and see what you find

I feel something I can't explain  
It takes control and gives me pain  
There are thoughts infesting my mind  
Take a look and see what you find

Summer kills - Summer kills - Summer kills

Dreams of hope hides all our sins  
Winter's changes where it all begins  
A false belief, that's not fair  
Nature's gift, why are they there
