

# The Hand Of Death

Holy Moses

I will stand inside my hell  
take the hand of death  
I don't care what they think  
Don't they know about  
I need you in my blood  
crack the liar's eyes  
I have no choice to stay again  
before my candles burn out

Yes I am, I say I am, Here I am, The Hand of Death

I close my eyes to feel the touch for my inner rush  
I stand in fire all night long and it makes me go  
I believe in my fate, so I take the hand of death  
I can see that you will die, I keep my candles burning

Yes I am, I say I am, Here I am, The Hand of Death

Get away our lives are closer now  
what the hell, what the hell

Yes I am...take my time...I say I am...in my time  
Here I am...for my hell...in my mind...The Hand of death

I am the mighty emperor ruler of the dark domain  
I don't care how you act you will lose your own respect  
I let you fall into my hands to press you now back down  
I am satan's angel my candles never burn on out

Yes I am, I say I am, Here I am, The Hand of Death
