

# Walpurgisnight

Holy Moses

Walking the streets alone at night  
You never thing you're scared to fight  
Strange woman coming near  
You feel a sudden fear  
Clouds now cover the moon  
Death will face you soon

Witch bitch - demons laughing loud  
Witch bitch - gonna eat your heart out

Snakes wind round your feet  
Your heart has stopped to beat  
This woman crossing your way  
Took your mind so far away  
Witches dance around the fire  
It's your heart what they desire

Witch bitch - demons laughing loud  
Witch bitch - gonna eat your heart out

For hell's snake give your life  
High priestess sinks the knife  
Into your guts you bleed  
Waking up at night you scream  
Realize it's just a dream

Witch bitch - demons laughing loud  
Witch bitch - gonna eat your heart out

When the witches turn around  
By satan's spell you're bound
