

# Call Me Up

Homeshake

I can see the future, we'll be  
Living it up inside  
Making you feel alright  
But I know  
We got a little space between us  
I know you want me too  
And there's something we can do

Patiently she's sitting there thinking of what she's gonna do  
All alone  
Anytime you wanna just call me up, and I'll answer you  
On the phone

Patiently she's sitting there thinking of what she's gonna do  
All alone  
Anytime you wanna just call me up, and I'll answer you  
On the phone

I can feel the pain within you  
It's turning your insides out  
And filling you up with doubt  
Don't you know  
How prudent, and I need you feeling  
Like you don't mean to Saying that you know what I'm about

Patiently she's sitting there thinking of what she's gonna do  
All alone  
Anytime you wanna just call me up, and I'll answer you  
On the phone

Patiently she's sitting there thinking of what she's gonna do  
All alone  
Anytime you wanna just call me up, and I'll answer you  
On the phone
