

This Way

Homeshake

Come and sit and stay a while
You can relax, it's me
Laying out and sipping chamomile
So slow, waiting patiently
Trying to spend the day away
But everything comes up dry
I'm here so I can get it straight
So moved and I wonder why

'Cause love is a very real thing
ever could lose
I don't wanna feel this pain
So why you gonna live this way?
Live this way?

'Cause love is a very real thing
ever could lose
I don't wanna feel this pain
So why you gonna live this way?

What you wanna talk about?
point you make
Let it in so I can let it out
So old, feeling out of shape
Use a couple of minds
Got it into my hand
Found the switch to get a little light
So broad I could get a
'Cause love is a very real thing
ever could lose
I don't wanna feel this pain
So why you gonna live this way?
Live this way?

'Cause love is a very real thing
ever could lose
I don't wanna feel this pain
So why you gonna live this way?
Live this way?

I can feel your energy
memory
Maybe you'll be better off

Come and sit and stay a while
You can relax, it's me
Feeling slippers on the frozen tile
So cold, living comfortably
Trying to spend a pretty time
Tuning it out with you
Take a breath to empty out my mind
I'm here, what you wanna do?

'Cause love is a very real thing
ever could lose
I don't wanna feel this pain
So why you gonna live this way?

Live this way?

Love is a very real thing
ever could lose
I don't wanna feel this pain
So why you gonna live this way?
Live this way?

I can feel your energy
memory
Maybe you'll be better off
