

# Shots Fired

## Honey Cocaine

Young flow,  
I'm the realest killer  
All I see is fake shit  
I ain't feeling it  
The law talking  
I ain't hearing it  
I be wishing a bitch would  
I ain't feeling shit  
This whole's weak and  
I feel like shit  
And I ain't f\*\*king with you hoes  
It's what made me rich  
Bitch, look, I hate to creep  
So I hustle like a beast  
'cause I'm made for this  
Get the money,  
Let's not favor it  
It's all cocaine white  
And I payed for it  
My gang's easy  
I'mma stay for real  
I went to walk  
All you motherf\*\*kers  
Crave for it  
Check it

I came to eat out the cake  
I'm hungry in this place  
And bitches looking like bait  
I get it in  
'cause I'm born to grind  
The very f\*\*king country  
I've been torn from time

Anybody hating, you can suck dick!  
I don't f\*\*k with niggers I don't f\*\*k with!  
Money the only thing I'm in love with  
I'm just getting bigger and I love it  
Asking for favors, but ca't afford me!  
Tell the people the truth, don't change the story  
And after all the drama I'm still not tired  
But I ain't playing no games, bitch, shots fired!

[Chorus]

I don't f\*\*k with niggers I don't f\*\*k with!  
Shots fired!  
Anybody hating, you can suck dick!  
Shots fired!

I spit them hoes before I used to ride with  
Staying bitches that young and used to get high with  
To all the hoes in the rap game and whack game  
The same bitches with small minds and rock fame  
Selling your pussy, you set a low bar  
Shame on us females who f\*\*king go hard  
A generation got no stars

Only see me and T0 Lane so far  
If you mad, bitch, then step it up  
If you mad, bitch, and sad, bitch, you set that up!  
Them haters hating but my head is up  
Just watch what I do, 'cause I said enough!  
I be flowing, spitting, they f\*\*king know  
'cause these hoes are stripping and I'm f\*\*king cold  
I ain't the greatest, but I'll f\*\*king grow  
Don't doubt me, without me is no f\*\*king show

To all the new people trying to fly in  
To get a seat with us, there ain't no buy in's  
You trying to eat with us, you must be walling,  
Watch how you treating us, we get to fire them  
I got bitches on stand by who ride in  
It's guaranteed, my bitches will get violent  
And after all the drama I'm still not tired  
But I ain't playing no games, bitch, shots fired!
