

Don't Know How

honeyhoney

Oh no I don't know If I'll go with you now I got buckets of words
Just to hush out the sound Of my heart falling down Into bits
on the ground Don't know how to love you When I'm not around

I sold all my clothes To get rid of your smell I smashed all the
clocks That had the right time to tell me How long it has been
Since we parted ways Don't know how to leave you When I wanna
stay

So go, go, go Go on without me now Lose me in the crowd Oh I am
so, so, slow Slow moving like a sow Words stuck in my mouth

Steady the lock down And hope it will take I'm cold rushing water
For the levee to break And the things that should soothe me
Just wear me away Don't know how to hold back What I shouldn't
say

So go, go, go Go on without me now Lose me in the crowd Oh I am
so, so, slow Slow moving like a sow Words stuck in my mouth

Oh no I lost track Of the time that you gave Squandered the hours
That I should've saved There's no turning back From my grave
in the ground Don't know how to love you When I'm not around

But I'll learn how to love you When I'm not around
