

Glad I've Done What I Did

honeyhoney

I was born with blue skin Tied in knots that I'm still in When
the doctor cut me free Man, he made an enemy out of me

I should have stayed Crawled back in and hid But I'm glad that
I've done what I did

I was raised by a stranger Loved every word he said to me Kept
me fat and free from danger I was the queen of the colony

I left my home Still a stupid kid And I'm glad that I've done w
hat I did

I can't complain Oh, but I do All the same I won't win or lose

I met someone when I was older And I fell so deep in love When
I felt our touch grow colder I crushed the cage and killed the
dove

I couldn't look I shut my eyelids And I'm glad that I've done w
hat I did

I can't complain Oh, but I do All the same I won't win or lose

Live each day like it's my first People tell me that I'm blesse
d All I see is where I come from I hope to trust to know what's
best

I made mistakes I jumped off the grid But I'm glad I've done wh
at I did I'm glad I've done what I did

I can't complain Oh, but i do All the same I won't win or lose
