

## Face To Face

## Honeymoon Suite

There's a hole in the overcast  
The sun spikes through  
And as I sit here I'm wondering  
If it's shining on you  
Shining on you  
Let it shine

There's a distance I must keep from you  
There's a hole in my heart  
I'm still tryin' to understand  
But I'm holding your ring  
Yeah I'm holding it in  
Holding it in

I just can't see you now  
Face to face  
Take each other memories  
I must erase

I just can't see you now  
Face to face  
I can't get over you

I've never cried before  
And it hurts to sleep alone  
Still I had another last night  
But she had your face  
Yes she had your face  
Had your face

I just can't see you now  
Face to face  
Take each other memories  
I must erase

I just can't see you now  
Face to face  
I can't get over you  
No way, no how

It's you

I just can't see you now  
Face to face  
Take each other memories  
I must erase

I just can't see you now  
Face to face  
I can't get over you  
No way, no how

No way, no how  
No way, no how
