

## Love Changes Everything

### Honeymoon Suite

There was a time, I wore different face  
I stood alone, feelings had no place  
I've given it all, taking nothing back  
You brought this lonely heart  
Back in from the cold  
Just like a fire, burning higher  
You got my heart on a string  
But now I know, love changes everything  
I don't need money, don't need no fame  
I gained only wisdom from so long in the game  
I built such a wall, love was just too dangerous  
Turned around you were right behind me  
There to catch my fall  
Just like a fire, burning higher  
You got my heart on a string  
Now I know, love changes everything  
Just like a fire, burning higher  
You got my heart on a string  
But now I know, love changes everything  
Only a fool believes in a heart of steel  
Yesterday's behind me now, whoa, woh  
Just like a fire, burning higher  
She's got my heart on a string  
But now I know, love changes everything  
Just like a fire, burning higher  
She's got my heart on a string  
But now I know, love changes everything  
Just like a fire, you got me burning  
You got me on a string  
But now I know, love changes everything  
Just like a fire, you got me burning
