

Turn My Head

Honeymoon Suite

There's a heart on fire at the other end of the line
But all my desire was [Incomprehensible] down over time
I want everything I see but I really don't know what I want
I ain't got money but I sure got a lot of dreams

Baby, you can make me
Anything that you want
You can turn my head all the way 'round
But don't drive me crazy

One heart, your love is divided in two
I wanna be alone but I keep on thinking of you
She can built me up, she can tear me down
But it keeps my feet on the ground
Baby, cut me loose, I'll never let go, I'm not

Oh, baby, you can make me
Anything that you want
You can turn my head all the way 'round
But don't drive me crazy

Baby, you can make me
Anything that you want
You can turn my head all the way 'round
But don't drive me crazy, baby

Baby, you can make me
Anything that you want
You can turn my head all the way 'round
But don't drive me crazy

Baby, you can make me
Anything that you want
You can turn my head all the way 'round
But don't drive me crazy
