

All in the Value

Honne

Talk about highs and lows
What goes up comes down you know
And I've been in a better place
A year ago at your love's embrace
I never thought that I could deserve you
I must admit that I wasn't like you
But given all the time that I gave you
I can no longer wait for approval
I want you to really want me too
Cause it's all in the value
I need you to really need me too
Cause it's all in the value
I'm a great man and I know there's greater
I try sell myself but it doesn't matter
And you're a cool girl, they don't come cooler
Don't trade me in, not for something newer
I never thought that I'd have the nerve to
Tell you my world is crushed now without you
I want you to really want me too
Cause it's all in the value
I need you to really need me too
Cause it's all in the value
I can't wait to have you back to me
But you can't wait to see the back of me
What you running from
Why you running girl
I want you to really want me too
Cause it's all in the value
I need you to really need me too
Cause it's all in the value
I want you to really want me too
Cause it's all in the value
I need you to really need me too
Cause it's all in the value
