

# Feels So Good

Honne

It's very cold  
Make a run for it, come on!  
Go

These are the moments I cherish  
Us hiding from the rain  
I'll stay by your side till I perish  
I know you'd do the same  
I never knew that this could feel so good

These are the moments I cherish  
You kissing me goodnight  
Everything else seems to vanish  
When I'm lying by your side  
I never knew that this could feel so good (so good)

At last a love that feels just like it should

This feels so good (feels so good)  
You got me in the mood, for love  
I don't know your horoscope  
But I know that you'll keep me close  
'Cause this feels so good (so good, so good)

With you it all makes sense  
What would I do if you were gone?  
'Cause you always finish my...

...sentence  
I know you more than anyone  
I never knew that this could feel so good

At last a love that feels just like it should, oh

This feels so good (feels so good)  
You got me in the mood, for love  
I don't know your horoscope  
But I know that you'll keep me close  
'Cause this feels so good  
(Yeah, it feels so good)

So good, so good  
Yeah, you make me feel  
So good, so good  
Too good to be real  
So good, so good  
So good  
No, I can never get enough

This feels so good (feels so good)  
You got me in the mood, for love  
I don't know your horoscope  
But I know that you'll keep me close  
'Cause this feels so good (so good, so good)
