

## Warm on a Cold Night

Honne

Like a rabbit in headlights  
They're stunned by all your charm  
And I feel so damn lucky  
To have you on my arm  
And I can't help but wonder  
How we ended up alright  
And I love you like no other  
Cause this has never felt so right

You can give me warm on a cold night  
Warm on a cold cold night  
Yeah, you can give me warm on a cold night  
Warm on a cold cold night

I want to treat you something special  
Give you what you deserve  
I want to take you to paradise  
In a 1950's Merc  
And I can't help but wonder  
Just how we ended up alright  
And I love you like no other  
And this has never felt so right

You can give me warm on a cold night  
Warm on a cold cold night  
Yeah, you can give me warm on a cold night  
Warm on a cold cold night

Girl, you can give me warm  
You can give me real warm  
There's just one thing:  
Girl, you could have anyone  
So why you choosing me and not leaving me on my own  
Girl, you could be with anyone  
So thanks for making me your number one

You can give me warm on a cold night  
Warm on a cold cold night  
Yeah, you can give me warm on a cold night  
Warm on a cold cold night  
Wrap me up and keep warm on a cold night  
Warm on a cold cold night  
Oh, yeah, you can give me warm on a cold night  
Warm on a cold cold night
