

Warm on a Cold Night

Honne

Like a rabbit in headlights
They're stunned by all your charm
And I feel so damn lucky
To have you on my arm
And I can't help but wonder
How we ended up alright
And I love you like no other
Cause this has never felt so right

You can give me warm on a cold night
Warm on a cold cold night
Yeah, you can give me warm on a cold night
Warm on a cold cold night

I want to treat you something special
Give you what you deserve
I want to take you to paradise
In a 1950's Merc
And I can't help but wonder
Just how we ended up alright
And I love you like no other
And this has never felt so right

You can give me warm on a cold night
Warm on a cold cold night
Yeah, you can give me warm on a cold night
Warm on a cold cold night

Girl, you can give me warm
You can give me real warm
There's just one thing:
Girl, you could have anyone
So why you choosing me and not leaving me on my own
Girl, you could be with anyone
So thanks for making me your number one

You can give me warm on a cold night
Warm on a cold cold night
Yeah, you can give me warm on a cold night
Warm on a cold cold night
Wrap me up and keep warm on a cold night
Warm on a cold cold night
Oh, yeah, you can give me warm on a cold night
Warm on a cold cold night
