

# Break Up, Break Down

Honor Society

I found out yesterday  
How easily things can change  
We said we'd always work it out  
Is any truth coming out of your mouth?

Break up from the break down  
I can't believe the things you say  
After what you did  
Break up from the break down  
You keep twisting all my words  
I say no then you say yeah

I really wanna  
Be leaving' with ya  
Said to me when you left last night  
You said it's over  
He's no good for ya  
I can't believe you haven't changed

Break up from the break down  
I can't believe the things you say  
After what you did  
Break up from the break down  
You keep twisting all my words  
I say no then you say yeah  
I say no then you say yeah

Nothing's ever good enough for you  
Nothing's ever good enough for you  
Baby nothing's ever good enough for you  
Nothing's ever good enough for you  
You

Break up from the break down  
I can't believe the things you say  
After what you did (oh no, no)  
Break it up from the break down  
You keep twisting all my words  
I say no then you say yeah  
I say no then you say yeah

And you girl the you mama you said no

Yeah

You say no  
And you say no  
You say no  
And you say no
