

When I get home

Honor Society

It's just past midnight and I can't fall asleep
Huggin' the pillow
Pretending you're next to me
Need to hear your voice
Need to hear you breathin'
Tell me is it hard to be away from me?

You sound so damn cute when I wake you with my call
Gotta get through the summer
And I'll promise you the fall
'Cause I will be in love with you again
And this is what we have to do till then

Tell me what you know about love
I'll tell you what I know about love
Tell me all the words that you love
And I'll scream them from the top of my lungs
Show me all the ways that you love
And I'll make them all the places I touch
And I'll see you again when I get home
Oh girl I'll see you again when I get home
So I'm comin' home

Standing under a street light
The leaves are at my feet
I've been waiting for so long
This is where we said we'd meet
Then I see her silhouette walking up to me
And I took her in my arms again
Then she whispered in my ear and said

Tell me what you know about love
I'll tell you what I know about love
Tell me all the words that you love
And I'll scream them from the top of my lungs
Show me all the places that you love
And I'll make them all the places I touch
And I'll see you again when I get home
Oh girl I'll see you again when I get home
So I'm comin' home
