

Where Are You Now

Honor Society

To my favorite teacher
Told me never give up
To my fifth grade crush
Who I thought I really loved
The the guys I miss
And the girls we kissed
Where are you now?
To my ex best friends
Don't know how we grew apart
To my favorite bands
And sing a longs in my car
To the face I see in my memories
Where are you now?

Where are you now?
Cause I'm thinking of you
You showed me how
How to live like I do
If it wasn't for you
I would never be who I am

To my first girlfriend
I thought for sure was the one
To my last girlfriend
Sorry that I screwed up
To the ones I loved
But didn't show it enough
Where are you now?

Where are you now?
Cause I'm thinking of you
You showed me how
How to live like I do
If it wasn't for you
I would never be who I am

I know we'll never see those days again
And things will never be that way again
But that's just how it goes
People change but I know I won't forget you

To the ones who cared
And who were there from the start
To the love that left
And took a piece of my heart
To the few who'd swear
I'd never go anywhere
Where are you now?

Where are you now?
Cause I'm thinking of you
You showed me how
How to live like I do
If it wasn't for you
I would never be who I am
If it wasn't for you
I would never be who I am

If it wasn't for you I'd be nothing
Where are you now?
