Where Are You Now

Honor Society

To my favorite teacher Told me never give up To my fifth grade crush Who I thought I really loved The the guys I miss And the girls we kissed Where are you now? To my ex best friends Don't know how we grew apart To my favorite bands And sing a longs in my car To the face I see in my memories Where are you now?

Where are you now? Cause I'm thinking of you You showed me how How to live like I do If it wasn't for you I would never be who I am

To my first girlfriend I thought for sure was the one To my last girlfriend Sorry that I screwed up To the ones I loved But didn't show it enough Where are you now?

Where are you now? Cause I'm thinking of you You showed me how How to live like I do If it wasn't for you I would never be who I am

I know we'll never see those days again And things will never be that way again But that's just how it goes People change but I know I won't forget you

To the ones who cared And who were there from the start To the love that left And took a piece of my heart To the few who'd swear I'd never go anywhere Where are you now?

Where are you now? Cause I'm thinking of you You showed me how How to live like I do If it wasn't for you I would never be who I am If it wasn't for you I would never be who I am If it wasn't for you I'd be nothing Where are you now?
