

No one else  
Will help us to get through  
So by ourselves  
We'll know just what to do

We are connected,  
We'll never be alone  
We walk together,  
Forever down that road

You and I  
Will share all that we know  
So close your eyes  
And just let yourself go

We are connected,  
We'll never be alone  
We walk together,  
Forever down that road

And if you fall behind,  
and don't know what to do  
I promise I'll be waiting there for you...  
(for you)...

Follow me into a better day  
We'll be alright,  
no matter what they say

We are connected,  
We'll never be alone  
We walk together,  
Forever down that road

Road, road, road...
