

# Escape

Hoobastank

Another day goes without any change  
The feeling we live with still remains  
We're stuck in a whole  
And we're searching for anything to hold on to  
There has to be somewhere that we can be safe  
From the lives we live each day  
There has to be somewhere that we can be far away

We have to escape  
And I will go anywhere  
If you just lead the way  
Escape to a place where we'll be together  
Together everyday  
We have to escape

We could be living how we wanted to  
Instead of doing things we're forced to do  
With no one to tell us that we should be going through what they went through  
There has to be someplace that nobody knows  
Somewhere we can only go  
There has to be someplace that we can be all alone

We have to escape  
And I will go anywhere  
If you just lead the way  
Escape to a place where we'll be together  
Together everyday

We have to escape  
And I will go anywhere  
If you just lead the way  
Escape to a place where we'll be together  
Together everyday  
Together everyday

We have to escape (Escape)  
We have to escape (Escape)

We have to escape  
And I will go anywhere  
If you just lead the way  
Escape to a place where we'll be together  
Together everyday

We have to escape  
'Cos now we go anywhere  
If you just lead the way  
Escape to a place where we'll be together  
Together everyday

We have to escape
