

Sick of Hanging On

Hoobastank

First you tell me it's over
Then you try to get me to stay
I'm so confused, what am I gonna do?
You pull me in so you can push me away?

The minute you tell me you need me
But it's right before you walk out the door
You're hot then you're cold and the game's getting old
Who am I supposed to be anymore?

I can't wait forever to know if we're together
I'm sick of hanging on
Anything sounds better than waiting on you forever
I'm sick of hanging on, sick of hanging on

Choose 'cause you can't have it both ways
Choose so I know what to do
'Cause I can't believe that's how you're going to be
You've had your cake and now you're eating it too

I can't wait forever to know if we're together
I'm sick of hanging on
Anything sounds better than waiting on you forever
I'm sick of hanging on, sick of hanging on

You need to make up your mind
I need to know where I stand
This is your only chance

I'm sick of hanging on
I'm sick of hanging on
Let me go or I'll let go

I can't wait forever to know if we're together
I'm sick of hanging on
Anything sounds better than waiting on you forever
I'm sick of hanging on, sick of hanging on
Sick of hanging on, I'm sick of hanging on
