

Can't Hold Me Down

Hoodie Allen

You know, in the run in the Anchorman, it was like "I'm serving it up, hot bacon and eggs."

Thank you, thank you for rocking out tonight
You could be anywhere in the world
But you're right here
I got my special guest, Tayyib Ali man,
We bringing this all the way from the key-stone state.
Chilling in the empire state
'Til we run the entire state.

Sitting in my '97 Honda, Yolanda
Be cool, she just want to go to Benihana.
These fools parking in my mother fucking spot
Got a little bit of nerve and a lot a bit of pot
I can smell it while she hanging out the passenger side
Of her best friend's ride and she's trying just to holla at me
Knows how to fight, punched her in the left eye
Chicks be getting feisty 'cause they fighting for the best guy.
Yeah I'm bumping Biggie but I've never been to Bedstock.
Counting out my money in a shoebox at my bedside.
That's old-school, no city bank
Got another girl, all she listens to is Chiddy Bang.
Everyone around me keep complaining that the city change,
Listening to Sirius radio with the silly face.
All these bitches hatin' yeah I oughta name them Will n' Grace
Gotta fat chance, I can fill the space.

I said please miss, I don't believe it
You touched me once I could feel it,
Ain't no way that I'd ever leave it
We could float way up to the ceiling
They can't hold me down, they can't hold me,
They can't hold me down, they can't hold me.
They can't hold me down, they can't hold me,
They can't hold me down, can't hold me down.

Young boss man, they ain't heard of me though
Off top the convertible flow, and everywhere that I go
I seem to need you, so you know I'm gonna to do anything I need to.
Hold up.
They say I changed, picture that with a Polaroid.
We in the fast lane, you hear the motor roarin'
I had to pop-shove-it, 'cause you went overboard.
I left Charlotte still boring like like I'm Okafor.
And they know they can't hold me down,
Hoodie we on top this go around'
It's hard to holla' at you, 'cause I'm outta' town.
In the sky, but they manufacture me from the ground.
Nineteen with the dream of having it all,
I need big money, so I'm stacking it all,
You be my main girl, and I can be a dog
You be here when I'm up, just be down when I fall.

I said please miss, I don't believe it
You touched me once I could feel it,
Ain't no way that I'd ever leave it

We could float way up to the ceiling
They can't hold me down, they can't hold me,
They can't hold me down, they can't hold me.
They can't hold me down, they can't hold me,
They can't hold me down, can't hold me down.

Nowadays my phone don't ring
Texts don't blow up
Heads so big that my neck won't show up.
But, I'm up and at 'em, keep on moving know the deal
Got a super bad broad but she doing Jonah Hill
And my suit is half off and my ties all knotted.
These hippies really love me because my buzz organic
They pick me at the market stick their pitchforks on it
Then they stick me in the garbage like the shit's gone rotten
Man I'm sick to my stomach so I guess I'm Johnny Appleseed
Warren Sapp on me the way I go and tackle bees,
Who would go and tackle Beta, I'm fishing for these compliments,
You Mickey D's with condiments
I'm Licky Lee with confidence
That's got me on these continents, I'm on to the next place
Got a little love, I don't even need a sex tape
Gotta' live it up, I don't even need an X-Ray
They see through all bull homie, exnay

I said please miss, I don't believe it
You touched me once I could feel it,
Ain't no way that I'd ever leave it
We could float way up to the ceiling
They can't hold me down, they can't hold me,
They can't hold me down, they can't hold me.
They can't hold me down, they can't hold me,
They can't hold me down, can't hold me down.

I said please miss, I don't believe it
You touched me once I could feel it,
Ain't no way that I'd ever leave it
We could float way up to the ceiling
They can't hold me down, they can't hold me,
They can't hold me down, they can't hold me.
They can't hold me down, they can't hold me,
They can't hold me down, can't hold me down.
