

# Hey Now

Hoodie Allen

Designated driver but I'm drinking till my wallets closed  
This right here that's rock and roll, you just call it rocky road  
Sorry Mr. ocifer, okay I meant officer  
But all these shots just turn me to a gossiper  
Tmz, binoculars and knocking on my window like I'm popular  
All I see is red lights, ain't nobody stopping ya  
You must be confused, I don't think you read the news much  
I'm a rasta monster on the beat, Luis Guzman

And I feel like I'm drinking for the first time, ain't no medicine to keep m  
y head from spinning  
And I feel like I'm drinking for the first time so let me take you back to t  
he beginning  
I mean like way back  
You get love and I make dap  
My facenodes cost pesos  
These girls coming like asap  
So stay strap, stay good  
They hating on what we could've been  
And I'm backpacking through Brooklyn  
We made this song we good again  
Hey now, hey now  
You been fucking up my day now, day now  
I just gotta find a way out, way out  
I don't want to go home, home  
Hey now, hey now  
Oh I'm finally getting paid now, paid now  
I got models you can take out, take out  
I don't want to go home, home

Girls be in the club trying to sing along to Taio Cruz  
Swear they know like every word, but they cant even tie their shoes.  
I'm amused,  
My music is influenced by the muses  
I'm confused, did you think I liked you for your new kicks  
High heels, low chance  
A little bit of love and a slow dance  
And we are trying to grow up so fast  
That we don't really know that what we got is romance.  
And don't you brag keep it hush, you know that this love can die  
Turn it up a little bit what you hear is something silent

And I feel like I'm drinking for the first time, ain't no medicine to keep m  
y head from spinning  
And I feel like I'm drinking for the first time so let me take you back to t  
he beginning  
I mean like way back  
You get love and I make dap  
My facenodes cost pesos  
These girls coming like asap  
So stay strap, stay good  
They hating on what we could've been  
And I'm backpacking through Brooklyn  
We made this song we good again  
Hey now, hey now  
You been fucking up my day now, day now  
I just gotta find a way out, way out

I don't want to go home  
Hey now, hey now  
Oh I'm finally getting paid now, paid now  
I got models you can take out, take out  
I don't want to go home, home

And tomorrow's never promised  
I said I'm tired of being honest  
You just trying to pick my brain  
And I'm just trying to pick your wallet  
And I'm gonna walk away  
'Cause I know the way  
That we live today  
Ain't Orthodox  
It's getting late  
But we all awake  
And we talking loud so just call the cops  
And make us stop, if you can  
You can try to ring us up  
Set up a perimeter but we ain't ever been in love  
I gotta couple minutes left, maybe I should live it up  
But this time, it's time you should give up  
This time, it's time, give it up, give it up (4x)

Hey now, hey now  
You been fucking up my day now, day now  
I just gotta find a way out, way out  
I don't want to go home  
Hey now, hey now  
Oh I'm finally getting paid now, paid now  
I got models you can take out, take out  
I don't want to go home, home
