

# Reunion

Hoodie Allen

Class lined up, girls lined up, guys lined up  
I said I dropped the mixtape and it sounded like an album  
Dropped the mixtape and it sounded like an album

Girls up in the front row  
Let me see your hands up  
Baby rocking crew cuts  
I ain't talking 'bout no hair cut  
They'd rather pull my pants off  
So I tell them go commando  
She calling me a god  
Oh father, that's Marlon Brando  
These girls hit you like catfish  
Girls hit me like Katniss  
They fall in love with this rap shit  
And I go to bed when I tap this  
Woo, that's madness  
Trick, I don't know no magic  
But everything I do is crack  
Call my album chapped lips  
Shhh, you Chaplin  
Don't speak when I'm rappin'  
You hang around like fashion  
But I look good, DatPiff  
I'm 'bout to get it that big  
Mobb Deep like Havoc  
You so out of this world  
I don't even know the planets

I said I been around the globe for a century  
And I'mma get to you eventually  
Cause I'mma take you where you're meant to be  
Where you're meant to be, where you're meant to be  
Is right next to me, so don't go in a hurry  
You already know, don't you worry  
I'mma take you where you're meant to be,  
Where you're meant to be, where you're meant to be  
Is right next to me, the reunion

Girls that fuck with Lupe  
Girls that look like Lana  
Come back to the telly  
And take shots at the Ramada  
I'm Morrison like in Jimmy  
You Morrisette like Alana  
That make us the perfect couple  
Let's make a couple Madonnas  
Got no problem with coppers  
'Less they doin' their job  
I'm way too pretty for prison  
I'm beggin' you, oh you're Honor

Just let me play my position  
Chris Paul you could never guard us  
Other rappers are sweatin'  
I tell them to hit the sauna  
Pointin' in my reflection  
But I don't need protection  
Got a gang of wild bitches  
They lovin' my whole inflection  
Only move in one direction  
No Harry, no Niall  
I just gon' bury your style  
You could get used to being rejected

I said I been around the globe for a century  
And I'mma get to you eventually  
Cause I'mma take you where you're meant to be  
Where you're meant to be, where you're meant to be

Girls who love to study  
Girls with bad attendance  
Both after my money  
And they only tryna spend it  
Said your favorite rapper's who?  
I don't even get offended  
We ain't on the same page  
Jack Donaghy to your Kenneth  
Ok well let's pretend it  
I'm ballin' like Andy Pettitte  
If I keep it independent  
I'm 'bout to cop me a penant  
And I only play fair  
These bitches is Roger Clemens  
You cheat to get ahead  
You'll probably lose it in the end

I said I been around the globe for a century
