

# Lifesaver

Hoodoo Gurus

Mmm, is this really the end, or is it a new beginning?  
A new reality..

So many misconceptions (don't be misled)  
So many evil deceptions (oh I am)  
I've come to give direction  
For I, am the lifesaver (the life)

Scooby doo wah, scooby doo wee  
Like a jazz player, I improvise wisely  
Free with the style, I flow like the Nile  
but remember, don't mistake the smile  
Deep rooted is my rhymin  
Like ancient African griots, precise is my timing  
But let me get to the essence of what I'm sayin here  
Too many blood red streets with bodies layin there  
The systematic fanatics are at it again  
Tryin to kill me and all of us my friend  
But don't bend to the mental strain  
Against all odds, we must strive for essential gains  
Be true to the life the Lord gave ya  
And that's a message from the lifesaver  
The lifesaver..

Oh I am, the life (I.. am the lifesaver)  
I am, the life.. yeah

It takes a more intelligent man to squash a fight  
than to set one off, knowledge I'll let some off  
Cause nowadays, everybody's a killer  
And as for me, no other MC is iller  
but still a thorn scrapes my heart  
when I see another life that's been torn apart  
over nonsense, no law, no order, it's evidence  
that the money only takes precedence  
Cause everybody wants power  
While the innocent are born or die, during every hour  
I scowl as I look upon evil  
but I must have the strength, to spark awareness in my people  
And we will learn to respect our neighbors  
Another message from the lifesaver  
The lifesaver..

People talk about the Armageddon  
And nowadays everyone you know is packin lead son  
Each day's another test  
Aiyyo I better do my best, cause a lot's ridin on my chest  
So when I lead you to the water, you best know  
how to swim across, so you can reach the border  
It's international, the message and the flavor  
So here's some more important words from the lifesaver  
The lifesaver.. (I am the life)  
The lifesaver..

garçon faché grandissant dans la violence et la paix, le mot "paix"  
c'est pour ceux qui perissent  
chaque jour dans alentours dans le monde et ses tours

dans present, dans retourn en arriere dans le fours  
et les cons les fait des rondes  
des ville grandes  
la terre chauffe les somets des montagnes fondre  
pendant za passe black za casse  
telle est mon uniform dans une vie a contre race  
sans me regarde on me mit en garde-a-vue  
certains cafardent, d'autres bavardent et tue  
des dedicases a tout quartier toute cité ont pas de chance ou pour seux  
qui sont tombé mais pas pour la france  
pays trop bidon  
vivement armageddon  
j'ai raison  
previent jéhovah pour mon pardon  
car si un flic me juge je le droite dans son oeil et le fond de son  
cerveau  
je gratte  
(goes off to fade)

So many misconceptions  
So many evil deceptions  
I've come to give direction  
For I, am the lifesaver
