

## Alone

Hoods

All alone I'm not scared just empty  
I feel there's nothing left I keep going  
Despite the feelings I lack when worlds collide  
I can't get this pain off my back - off my back  
All that's wrong - I stand alone  
Sickness and pain for what? - for what?  
I'm still here our worlds collide  
I survive now you rot the mistakes you made  
All these scars for nothing  
All these scars for nothing  
Stand alone  
All these scars - all these scars for what?  
all alone I'm not scared just empty  
There's nothing left
