```
Tired of being sick inside
From the drugs and the liquor i drank last night
Morning is a daze in bed i lay
As soon as night breaks i'll do it again
And i'm sorry i can't think straight
Give me anything to numb this pain that i feel inside - just w
ant to die!
Wake up cold i shake in bed
This is the last time i'll ever do that again
Wait a minute I said that before
As i lose control i fall on the floor
Another night - numbness and pain
Here we go - as i lose it again FUCK!
UNTIL I BREAK!
```
