

## Too Far Gone

Hoods

At one time you seemed so strong  
Now I ask where are you now  
If you couldn't fit the part  
Why'd you play the role  
I know I didn't always show respect  
At least what I feel is real  
For you to say it's all for me  
When I was there for you  
No matter what you do  
We were always there for you  
You turned lost walk away  
No matter what you do  
We were always there for you  
The meaning of friendship's lost betray  
Always strung along  
Promises we fail to keep  
A strong gesture at the time  
Moments with no sincerity  
Some say pride never dies but  
Your turned walk away  
To spend so much time doing what you love  
Then throw it all away  
Your too far gone (2x)
