

## Willie Nelson And A 12 Pack

Hoods

Pack your shit get in the van  
The road is ours tonight  
Like a band of gypsies we'll roll down the highway  
Willie Nelson sure was right

Many many places and many many faces  
Still so far to go  
Shooting guns and playing pool  
Beer, bud, chicks and booze  
Take your job - stick it up your ass it's not for me  
The road is my life, my love  
It's where I need to be  
57 cities down - another 100 to go  
Been here my whole life - I really have nothing to lose

Crack a beer turn the radio up  
"On the road again" we all yell  
We all think we're in heaven  
The rest of y'all livin' in hell!  
Take your job stick it up your ass it's not for me  
The road is my life, my love  
It's where i need to be  
57 cities down - another 100 to go!  
Been out here my whole life  
I really have nothing to lose - nothing to lose!  
LOSE! LOSE! LOSE!
