

# Birdman

## The Hooters

When I saw you standing next to me  
Well I knew I couldn't let you be  
All alone in a great big world  
Didn't know if you had room for me  
Get a ticket to another side  
This party's over, would you like a ride?  
Cross town to a different scene  
Feed this crowd to it's company

Won't you please understand  
I'm like a bird in your hand  
I wanna take it as far as we can get  
Let me be your Birdman, hey  
Let me be your Birdman

Is he your buddy or your bedroom pal?  
You're a different kind of animal  
Then love takes another turn  
So little time and so much to learn

Won't you please understand  
I'm like a bird in your hand  
I wanna take it as far as we can get  
Let me be your Birdman, hey  
Let me be your Birdman

Do you wanna get hypnotized?  
See the world through my eyes  
Hold my hand and I'll touch your mouth  
Watch the birdie fly and fly and fly and

Who's that girl? What's her name?

When I saw you standing next to me  
Well I knew I couldn't let you be  
All alone in a great big world  
Didn't know if you had room for me  
Get a ticket to another side  
This party's over, would you like a ride?  
Cross town to a different scene  
Feed this crowd to it's company

Won't you please understand  
I'm like a bird in your hand  
I wanna take it as far as we can get  
Let me be your Birdman, hey  
Let me be your Birdman  
Let me be your Birdman  
Come on  
Let me be your Birdman  
Yeah  
I'm your birdman (every day, everyday)
