

Karla With A K

The Hooters

Freedom has its ups and downs
Walk the streets of lonesome town
Try to find some company
Somebody who will talk to me

Well I'm here all alone a wind blows home
We'll find it someday
There's no reason to cry for days gone by
Oh, Karla, we can make it if we try

Hurricanes and Cadillacs
They run you down and don't look back
Oh where can my salvation be
A tender touch to comfort me

But I'm here all alone a wind blows home
We'll find it someday
There's no reason to cry for days gone by
Oh, Karla, we can make it if we try

No matter how the wind may blow, you belong to me
Like the mountains to the sky
And you know when I close my eyes, you're the one I see
Oh, Karla, we can make it if we try

Old man river's on the rise
Wash the circles from my eyes
Hurricane is on its way
Oh you can call it Karla, Karla with a K

No matter how the wind may blow, you belong to me
Like the mountains to the sky
And you know when I close my eyes, you're the one I see
Oh, Karla we can make it if we try

Oh, Karla we can make it if we try
C'mon, Karla we can make it if we try
Oh, Karla we can make it if we try
