

# Ordinary Lives

The Hooters

We count the days  
We trace the steps  
But still we race into tomorrow  
In every one  
We've ever met  
We find the laughter in the sorrow

And who knows where the time goes  
But we knows how it flies  
Pieces fit together  
Just like Lucy In The Sky  
Songs that we'll remember  
Songs that never die  
Extraordinary moments  
In ordinary lives

I look at you  
You look at me  
There's love enough to be uncovered  
It's hard to see  
But right before our eyes  
We find the heaven in each other

And who knows where the time goes  
But we knows how it flies  
Pieces fit together  
Just like Catcher In The Rye  
Words that we'll remember  
Words that make you cry  
Extraordinary moments  
In ordinary lives

Yeah, who knows where the time goes  
But we knows how it flies  
Pieces fit together  
Just like hello and goodbye  
All the things that matter  
That money just can't buy  
Extraordinary moments  
In ordinary lives

Blow out the candles  
Slice up the cake  
Life's just a camera  
For these memories we make  
And who knows where the time goes  
But we knows how it flies  
Extraordinary moments  
Extraordinary moments  
Extraordinary moments  
In ordinary lives
